

Clearview Request

rev. 6/12/2009

HIV Early Intervention Services (EIS) Program

The HIV EIS program has a limited supply of Clearview rapid HIV testing supplies.
These are provided to eligible HIV EIS counselors at no charge.

Date: _____ Site Code: _____

Facility: _____

Shipping Address: _____

_____ **This is a new address.**

Phone number: _____ E-mail: _____

I have notified Chatham Lab that I am doing rapid HIV testing.

I have faxed a copy of my organization's CLIA Waiver to Katherine Bever (fax no. below)

My organization has rapid HIV testing policies and procedures and a quality assurance plan in place.

I am requesting ____ Clearview Rapid Test kits (25 testing devices each)

If you are requesting two or more kits, please explain:

I am requesting ____ Clearview Rapid Test **Control Pack(s)** and Accessory Pack(s).

Each Control Pack contains enough material to run controls approximately 20 times.

I have successfully...

- completed the 2-day *HIV Prevention Counseling and Testing* course,
- graduated from rapid HIV testing training,
- and been trained to use Clearview Complete.
- I know how to confirm a preliminary positive by sending an OraSure sample to the lab
- and how to fill out the HIV Test Report form (also called the bubble sheet).
- I have submitted a bubble sheet for every test conducted; I have no overdue bubble sheets.

Signed

Fax your request to Katherine Bever at 404-704-0699.

Please allow three weeks for processing & delivery.

You will be notified by phone and/or e-mail whether your request can be filled.
